The cells of the human body work properly, if they are nourished and cleaned

Ganoderma - Queen of plants

It is non-toxic and safe

It is not intended only for special organs

It has an overall harmonizing effect

**Ganoderma
is a powerful adaptogen**

Ganoderma is considered a powerful functional food with unique beneficial effects on the human organism, improves mental health and affects longevity. Based on scientific research, Ganoderma contributes to the detoxification of the organism and supports the harmonious state of the body. Ganoderma, which is contained in DXN coffee, is also a strong alkalizing agent, compensating for the acidity of coffee. You can also enjoy your favorite drink in increased quantities. This is because it simultaneously provides our body with several hundred active nutrients, among which there are more than a hundred antioxidants, which have a very strong positive effect on optimizing health and stimulating the body.
